

# accessMONEY MANAGER™

## System Requirements

accessMONEY Manager™ is an integrated online solution, delivering a comprehensive view along with a full suite of tools for effectively managing your cash flow. With our market-leading site, you gain a more immediate way to manage payables and receivables, and you benefit from a broad range of timely and detailed account information.

### BROWSER REQUIREMENTS

- Microsoft® Internet Explorer® 9.0 and 10.0 with 128-bit encryption
- Mozilla® Firefox® 9 and higher with 128-bit encryption
- Enabled JavaScript and Cookies

Note: Limited support is available for Internet Explorer 11. For best results, we recommend using one of the above mentioned certified browsers. If your browser does not meet the above standards, you will receive an error message and will not be able to access accessMONEY Manager until the browser is updated. Typically, browser versions are upward compatible and should not cause any performance issues. However, the bank cannot guarantee that you will not experience any difficulties, as these versions have not been tested for use with accessMONEY Manager.

## IMPORTANT INFORMATION FOR MACINTOSH USERS

accessMONEY Manager is only certified for the Firefox browser on the Mac® OS X operating system. Safari® users may have the ability to login and use certain functionality of the system; however, access to specific accessMONEY Manager initiation products may not be successful. For this reason, we do not recommend that you use accessMONEY Manager with the Safari browser. E-Z Deposit® is not available on Macintosh platforms.
